

Quality Policy

NEVAS Consultants Limited is a multi-faceted company offering key support and specialist services which have been developed to meet the diverse needs of our clients. Our intelligence-led approach reflects the cross-government backgrounds of our key team members, who have enjoyed successful careers in policing, military and related specialist agencies. We therefore share a common experience of delivering results within challenging environments and against exacting deadlines.

Our key specialisms reflect the global nature of our marketplace and the growing demand for capacity building and training programmes, frequently overseas, in regions with fragile political structures and high security risk. These services include

- Risk & Strategy Management
- Interpreter Services
- Conferencing
- Training
- Trace, Locate & Verify Services
- Cyber Security

In the delivery of this service the Management and staff of NEVAS are fully committed to:

- The continuous improvement of quality performance via the setting and monitoring of objectives and targets at dedicated management review meetings.
- Compliance with relevant operational legislation as well as current industry standards.

To achieve and maintain the high standard demanded a Quality Management System has been developed and documented. This Quality Management System conforms to the requirements of BS EN ISO 9001:2015, covers all activities, is available to all staff and communicated via the documentation portal.

The Quality Management System is based on assessment of business and operational risks and these risks are managed via the implementation of documented control measures. Responsibilities for staff involved in this implementation process are defined.

This policy is made available to customers and other interested parties on our website. It is reviewed and updated on an ongoing basis, to ensure its continued effectiveness
